## Automatic Powder Spray Booth ST-APC-B6219

### Features:

1. High Accuracy: Automated spraying equipment utilizes a PLC control system to precisely regulate paint flow, spraying distance, and spraying time, meeting stringent accuracy requirements.
2. High Precision: Equipped with an automatic cleaning device, the system removes dust, stains, or other impurities that could interfere with the spraying process, ensuring superior coating precision and smoother operation.
3. High Efficiency: By employing high-pressure spraying technology, the equipment significantly increases spraying efficiency and greatly reduces processing time.
4. Material Savings: The system automatically monitors paint flow, spraying distance, and spraying time, effectively minimizing excessive paint consumption and reducing operational costs.
5. Eco-Friendly: Compatible with most non-toxic and environmentally safe paints available on the market, the equipment helps reduce environmental pollution and lower ecological impact.

### Parameters:

Name	Size/Material	Quantity
Automatic Powder Spray Booth	L6200*W1900*H3500	1 set
Housing Material	Material: Galvanized Sheet with Plastic Coating – t1.5mm, &1.2	1 set
Base Frame Material	Galvanized Square Tube 50*50*2.0mm	1 set
Floor Plate Material	Material: Galvanized Sheet with Plastic Coating – t2.0mm	1 Batch
Open Spraying Stations		10 units
Touch-up and Maintenance Stations		2 units
Pneumatic Pipeline System		1 set
